

Infrastructure Asia

Making Infrastructure Happen

Workshop 2: Capturing Clean Energy
Opportunities in Asia

For
Energy Innovation 2022

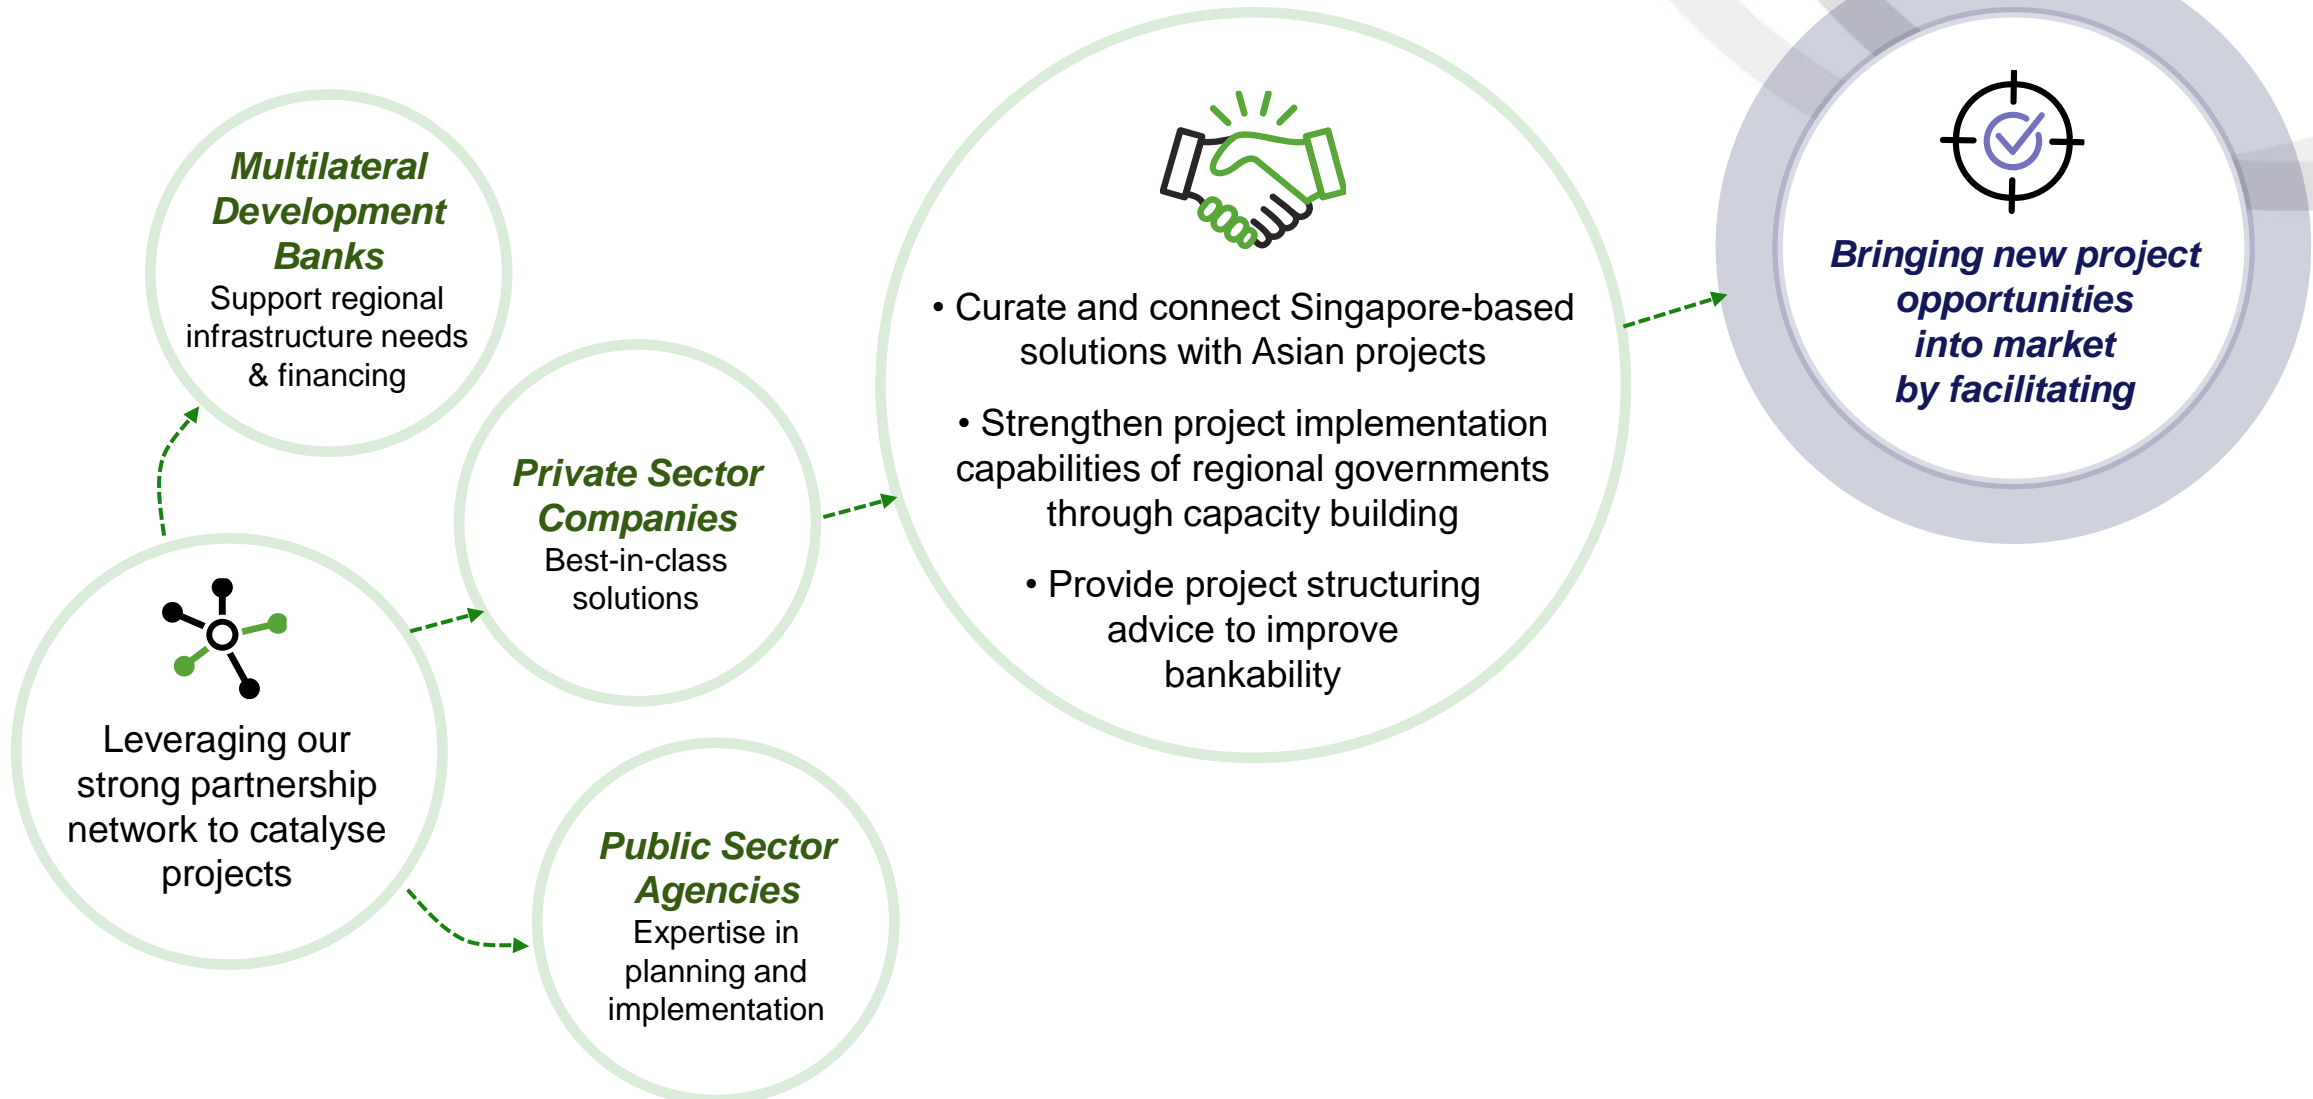

15 July 2022

Infrastructure Asia brings together enterprises and financing to catalyse more investment-ready infrastructure projects in the region

Official launch of Infrastructure Asia at the
8th Asia-Singapore Infrastructure Roundtable on 23 October 2018

Infrastructure Asia harnesses the collective strength of Singapore's ecosystem and development experience to support Asia's growth

Singapore's deep ecosystem supports Infrastructure Asia in enabling infrastructure projects in the region

Real Economy

EARLY STAGE PROJECT DEVELOPMENT

PROJECT MANAGEMENT & EXECUTION

Financial Economy

DUE DILIGENCE & DEAL STRUCTURING

INVESTMENT AND LENDING & CAPITAL RECYCLING

*The list above is illustrative in nature and non-exhaustive.

Sustainability will be Infrastructure Asia's focus

IN REGIONAL MARKETS

Key Priority Sectors

Clean Energy

Public
Environmental
Health

Logistics and
Connectivity

*The sectors in **bold** are aligned with the countries' goals based on national priority plans.

We leverage expertise and knowhow from the private sector,
to co-create bankable cases with regional governments

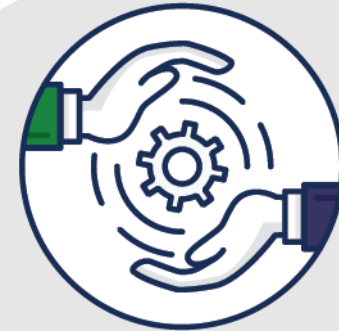

CONNECTIONS

We enable connections to
good-fitting solutions of
private sector

CAPACITY BUILDING

We work with regional
governments to build
their capacity

ENABLE BANKABILITY AND FINANCING

We facilitate platforms and
initiatives to improve
bankability of projects

Asia Infrastructure Forum (AIF) 2022

“Scaling-Up Sustainable Infrastructure”

AIF 2022 will create an opportunity for participants to engage in high-level discussions amongst relevant leaders in Asia's infrastructure market

Main Conference

Ideation Roundtables

Project Discussions

Marketplace

Sessions relating to Clean Energy and Energy Efficiency

1. Ideation Roundtable on “Powering the Next Wave of Asia’s Energy Transition”, co-organised with Enterprise Singapore and U.S. International Development Finance Corporation (DFC)
2. Ideation Roundtable on “Sustainable Mobility for Green Transport”
3. Ideation Roundtable on “Advancing Low-Carbon and Energy-Efficient Technologies in Asia's Cities”, co-organised with Japan’s Ministry of Land, Infrastructure, Transport and Tourism (MLIT)
4. Project Discussion on “Unlocking Value Through Infrastructure Asset Recycling in India”, co-organised with India’s Invest India
